

AREA 21 Webinar series

**Energy District Webinars and Resources – Tools and guidance for
integrated district-level energy planning**

Webinar 2: 08 September 2020 14:00 to 15:30 (CET)

Strategic Energy Planning in Urban Districts from a Policy Perspective

This webinar provides a forum on the current issues of energy improvement policy and collaborative processes in the strategic planning and implementation of energy solutions. It focuses on recommendations to improve action on energy efficiency at the local and regional levels. Particular attention will be paid to the role of cooperation among energy stakeholders and across levels of government, and methods to encourage and support this.

Moderation/Chair: Jörg Knieling, HafenCity University Hamburg

13:45	Welcome & technical setup
14:00	Introduction Meeting check-in <i>Jörg Knieling, HafenCity University Hamburg</i>
14:10	Energy planning at the district level: AREA 21 policy recommendations <i>Jonas Fischer, HafenCity University Hamburg</i>
14:20	How does risk management facilitate energy efficiency planning? <i>Marit Ragnarsson, EFFECT4buildings</i>
14:30	Collaboration in the BSR: Chances for increased energy efficiency? <i>Olena Zinchuk, UBC tbc</i>
14:40	Collaboration on urban scale in the EU: Big chances or challenges? <i>Thomas Becker, STRING</i>
14:50	Panel discussion with speakers <i>Moderation Jörg Knieling, HCU tbc</i>
15:20	Conclusions & Meeting check-out <i>Jörg Knieling, HafenCity University Hamburg</i>
